Distractors=\_\_\_\_\_ or \_\_\_\_\_ answers; thinking \_\_\_\_\_ designed to make wrong answers seem correct.

Spotting the 4 types of Distractors. WATCH OUT for these:

Type 1=\_\_\_\_\_

This type adds, takes out, or flips words

Type 2=\_\_\_\_\_

This type answers another question about the passage but NOT this one

Type 3=\_\_\_\_\_

This type is a con; it looks right but is too good to be true; sounds great (warm & fuzzy); sounds reasonable

Type 4=\_\_\_\_\_

MIGHT be true if it didn't include EXTREME words like

***always, completely, perfectly, all***
